SECTION

01

Design System Reference

Source of truth: color tokens, type scale, spacing, radii, shadows, and every shared component shown out-of-context.

Color

01

Color carries meaning — never decoration. Cardinal Red is a brand signature, not a UI workhorse: reserve it for the product mark, destructive actions, errors, critical-status indicators, and the active nav left-bar. Near-Black does the heavy lifting for primary actions.

PRIMARY BRAND

Cardinal Red

#E41F35

Brand mark, destructive, errors, "Inactive / Failed", active nav left-bar. Prominent but not dominant.

Near-Black

#27251F

Primary text. Primary action button fill. The workhorse color of the system.

NEUTRALS

White

#FFFFFF

Default surface. Card and modal backgrounds.

Warm Gray Light

#EFEFEF

Section background. Row hover. Subtle separation.

Warm Gray Med

#948A85

Secondary text. Muted icons. UI dividers.

Border

#E5E5E2

Hairline border on cards, inputs, table rows.

ACCENT

Light Blue

#BBDDE6

Selected rows, focus rings, info tints. Used sparingly so it never competes with Cardinal Red.

Light Blue (35%)

rgba(187,221,230,.35)

Selected table-row fill. Pairs with a 2px Light Blue left border.

SEMANTIC

Success

#2F6B4A

Muted forest green. Text and icons only — no large fills.

Warning

#B8860B

Muted amber. Text and icons only.

Error

#E41F35

Cardinal Red doubles as the error semantic.

Info

#BBDDE6

Light Blue accent for informational banners.

Typography

02

Inter, used for everything. A restrained scale — 24 / 18 / 14 / 12 — keeps the product editorial. Tabular figures on every numeric column so hours and rates align cleanly.

Page title 24 / 32 · 600 · -0.01em	Estimate templates
Section title 18 / 26 · 600 · -0.005em	Onshore — Standard SDLC phases
Body 14 / 20 · 400	Each estimate template is versioned. Only one version of a template can be active at a time per Product or Sub-feature.
Secondary 14 / 20 · 400 · Warm Gray Med	Used for helper copy, descriptions, and de-emphasized labels alongside primary content.
Small / meta 12 / 16 · 400 · Warm Gray Med	Maria Chen · 12 min ago · v3 (active)
Numeric 14 / 20 · 400 · tabular-nums	1,248.00 · 312.50 · 88.00 · 1,640.50
Eyebrow / table head 12 / 16 · 500 · uppercase · 0.06em	SDLC PHASE

Buttons03

Primary actions are filled Near-Black — never Cardinal Red. Destructive actions are Cardinal Red outlined, filling on hover or for the final confirm step.

	DEFAULT	HOVER	ACTIVE	DISABLED	LOADING
Primary	Save changes	Save changes	Save changes	Save changes	Saving
Secondary	Cancel	Cancel	Cancel	Cancel	⌵ Loading

SIZES

Small (28)

Default (32)

Large (36)

+ Add line

🔍 Search

All buttons share a 6px corner radius. Icons are 14×14 inside default-size buttons; spacing between icon and label is 6px.

Form elements04

Inputs are 36px tall with a 6px radius and a hairline border. Focus state uses the Light Blue accent — a 2px halo plus a deeper border tone — never Cardinal Red.

Textarea

Critical question

What downstream systems will the new portal need to integrate with?

Asked of the Requester before the estimate is generated.

Filled

Will the portal need to integrate with the existing CRM, the marketing automation system, or both? Include any non-obvious dependencies.

Data table

05

The most important component in the system — estimate templates, audit logs, and rate tables all sit on this. Square corners, hairline rows, tabular figures, quiet column heads.

☐	SDLC PHASE ▲	ONSHORE LOW ↓	ONSHORE MED ↓	ONSHORE HIGH ↓	OFFSHORE LOW ↓	OFFSHORE MED ↓	OFFSHORE
☐	Discovery	24.00	40.00	72.00	36.00	60.00	
☐	Design	40.00	80.00	120.00	56.00	112.00	1
☐	Build	120.00	240.00	400.00	160.00	320.00	5
☐	Test	48.00	96.00	160.00	64.00	128.00	2
☐	Deploy	16.00	32.00	56.00	24.00	48.00	
☐	Hypercare	24.00	48.00	80.00	32.00	72.00	1

Hover row 1 for hover state, see row 3 for selected state (Light Blue tint + 2px Light Blue left bar). Sort indicator: filled triangle on the active sort column, paired ↑ on inactive columns.

Cards & panels

06

White surface, 8px radius, hairline border, very-soft shadow. Headers carry actions on the right.

Critical questions

Asked before estimate generation

+ Add

Will the portal integrate with the existing CRM?

Required

What is the expected concurrent user load?

Optional

Are there regulatory compliance constraints?

Required

Sub-features

Digital Enrollment Portal

Manage

No sub-features yet

This product is estimated as a single template.

Reference

Empty states and edge cases for the Change Log — out-of-context for review. Variants A, B, and C of the expanded entry are inline above.

Empty state — New workspace

Day 1, before any changes have been recorded. No CTA — the user can't seed activity directly; activity arrives organically as they work elsewhere in the app.

No activity yet

As you and your team make changes to products, teams, rates, and users, those changes will appear here.

Empty state — Filtered to zero

In-feed result, smaller and dashed. Lives where the entries would, so the toolbar and date headers stay anchored.

No changes match your filters

Try widening the date range or removing some filters.

Reset filters

End of feed marker

Replaces the "Load more" footer once the user has scrolled through every entry that matches the current filters.

— End of change log —
